

ADDENDUM NO. 1

VILLAGE OF CEDARHURST

BID NO. PR-2026-002

ANDREW J. PARISE PARK – PLAYGROUND IMPROVEMENTS PROJECT

Dated: April 17, 2026

TO ALL PROSPECTIVE BIDDERS:

This Addendum forms a part of the Contract Documents and modifies the original Bid Packet, as noted below. All bidders must acknowledge receipt of this Addendum in their bid submission.

Except as modified herein, all other terms and conditions of the Bid Documents shall remain unchanged.

Playground Equipment Specification

The following specification is hereby added to the Contract Documents and applies to Alternate No. 1 – Playground Equipment:

The Contractor shall furnish and install one (1) inclusive playground spinner meeting the following requirements:

- Product: Inclusive Atom Spinner by Superior Playgrounds (SRP Playgrounds), or approved equal
- Age Range: 2–12 years
- Capacity: Minimum six (6) users
- Inclusive design including transfer-height seating and supportive backrests
- Freestanding unit suitable for installation in a mulch play area
- Minimum use zone: approximately 17’-6” diameter

Installation Requirements

The Contractor shall:

- Provide and install all necessary footings, anchoring systems, and hardware
- Install the equipment in accordance with manufacturer specifications
- Coordinate installation within the designated mulch area
- Restore and level all disturbed mulch areas and provide additional mulch as required to maintain proper depth within the use zone

Submittals

The Contractor shall submit the following for approval prior to installation:

- Manufacturer specifications and cut sheets
- Shop drawings, if applicable
- Installation instructions
- Warranty documentation

Approved Equal

Bidders proposing an “approved equal” must submit complete product information with their bid demonstrating equivalency in design, function, durability, and compliance with applicable ASTM and CPSC standards. The Village reserves the right to determine equivalency.

Reference Document

A product cut sheet for the specified equipment is attached hereto for reference.

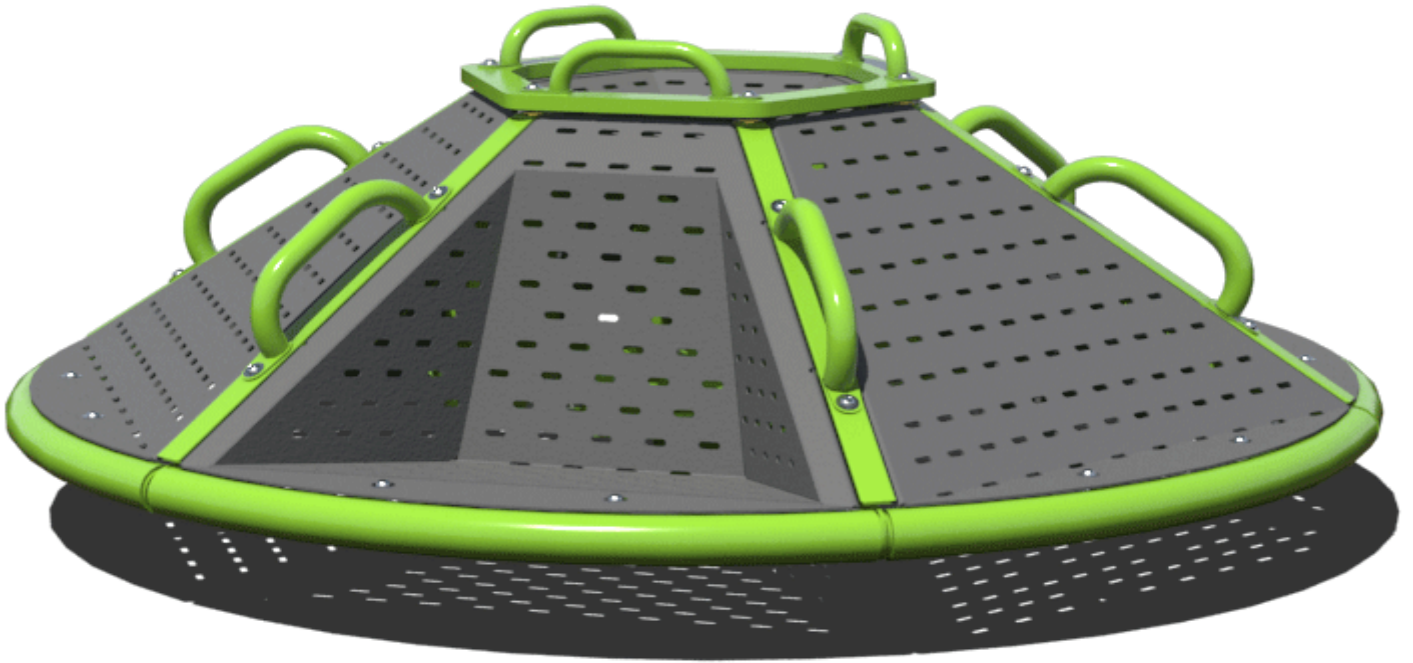

2. ACKNOWLEDGMENT

Bidders must acknowledge receipt of this Addendum in their bid submission by completing and submitting the Addendum Acknowledgment Form.

BY ORDER OF THE BOARD OF TRUSTEES

Village of Cedarhurst

Nassau County, New York

Product Description

The Inclusive Atom Spinner is a reimagined merry-go-round that all children of all abilities can enjoy. This freestanding motion element is designed for children ages 2-12 years with a use zone of 17'-6". The spinner features three inclusive seats at transfer height. The high-back seats, which are designed at a 10-degree slope, provide children who may need seated support the opportunity to safely spin with their friends. Additionally, handholds provide additional support. Three angled play surfaces make this spinner super cool and physically challenging. At 39 degrees, these angled play surfaces allow a child to use their imagination. They can lay or sit to enjoy the thrill of spinning on the Inclusive Atom Spinner. Spinning on the Inclusive Atom Spinner enhances vestibular stimulation, which is known to increase concentration, balance, and more. What's more, this playground spinner also helps to build core and upper body strength and endurance. Socially, this spinner encourages cooperation and social skill development as children learn to take turns and spin others.
